Risk Factors

The value of the investments and the expected returns may be affected generally by factors affecting financial and securities markets, such as price and volume, volatility in interest rates, currency exchange rates, changes in regulatory and administrative policies of the Government or any other appropriate authority (including tax laws) or other political, economic, and other developments as detailed below:

- **Portfolio Entities/ Companies Risk:** The performance of the model advisory portfolio will depend upon the business performance of the Portfolio Entities and Companies and its prospects. Investment Adviser focuses on studying the business and the sustainability with focus on studying the balance sheet will help the Investment Advisor in mitigating these sector or company risks.
- **Valuation Risk:** Investment Adviser will assess the Portfolio Entities from varied valuation parameters in order to establish whether the valuations are reasonable while creating the model portfolio and reassess the same from time to time.
- **Market Risk:** Investment Adviser endeavors to create a portfolio of Entities /Companies using bottom-up fundamental research rather than trying to time the markets. However,

in order to mitigate Market Risk, the Investment Adviser will monitor and analyse the market and economic circumstances from time to time that may affect the performance of the Portfolio Entities.

- **Liquidity Risk:** While investing in equities and Portfolio Entities, liquidity constraints are potential near-term risk while investing and disinvesting the Portfolio Entities. The Investment Adviser endeavors to mitigate the risks by investing creating a portfolio with a medium to long term time horizon.
- **Service Provider Risk:** Investment Adviser is reliant upon the performance of third-party service providers for their functions. Weak control over technology used in the third-party arrangement may result in threats to security and the integrity of systems and resources, which can have materially detrimental impact upon the operations of the AlphaGrep Advisors Private Limited. These issues could result in unauthorized transactions or the inability to transact business as expected. The Investment Adviser endeavors to mitigate these risks by entering into the arrangement with regulated entities and/or incorporating indemnity clause in the agreement entered with service providers.
- **Other Risks:** The Investment Advisory does not offer any assured / guaranteed returns.
